

# ThedaCare Medical Center

## Waupaca, WI

### WELCOME

Providing quality care in a peaceful setting. Since 1954, Waupaca area residents have enjoyed a wide range of medical services in a beautiful setting that's convenient and close to home.

For 60 years, ThedaCare Medical Center Waupaca, formerly Riverside Medical Center has provided high-quality care to residents of the City of Waupaca and surrounding communities including King, Iola, Weyauwega, Ogdensburg and Scandinavia. Located on a wooded campus along the Crystal River, ThedaCare Medical Center Waupaca was founded as a non-profit community hospital. It serves the county as a Critical Access Hospital. Each year, ThedaCare Medical Center Waupaca provides 24-hour care to approximately 30,000 individuals from Waupaca and the surrounding areas.

In addition to 24-hour emergency care, ThedaCare Medical Center Waupaca has cardiac specialists, obstetrics, general surgery, orthopedics and rehabilitation services as well as a full array of ancillary services including radiology, laboratory and therapy. For patient's convenience, all of our systems and records are connected so there is seamless communication between care team members. Many of the physicians that practice in the Fox Cities also practice right here in Waupaca

In 2009, ThedaCare Physicians-Waupaca built a new facility connected to the hospital, creating a shared

entrance and integrating primary and specialty care services under one roof. Thedacare Physicians-Waupaca is the largest multi-specialty physician practice in the area.

Physicians-Waupaca is the largest multi-specialty physician practice in the area.

### Rotation Experiences

**Family Medicine** – *Dr. Zachary Baeseman, Dr. Michael Bauer, Dr. Paul Sletten and Dr. James Spencer*

Experience first-hand a full scope family medicine practice. From inpatient and ICU to outpatient clinics and obstetrics, see how balance can be achieved while maintaining a great rural lifestyle and advancing your graduate medical training. Our physicians perform numerous outpatient and inpatient procedures from skin biopsy and lesion removal to vasectomy, toenail removals, colonoscopy and colposcopy. Obstetrical procedures can include cesarean section, vaginal assisted operative deliveries, external cephalic versions, and post-partum tubal ligations.

### Community Highlights

A beautiful haven in the middle of the state, Waupaca, is home to 22 spring-fed lakes that comprise the Chain O' Lakes. Ancient glaciers left their imprint on the Waupaca countryside, leaving sand plains, rolling hills, deep ravines, swiftly-flowing rivers and many kettle lakes. The landscape consists

of wooded areas and trout streams, intermixed with agricultural lands. We welcome you to come and enjoy what we take for granted every day, beautiful land, water and skies. Waupaca...where memories are made.
