Integration of UME and GME

Under the NRMP All In Policy, any program registering for the Main Residency Match® must register and attempt to fill all positions through the Match or another national matching plan. Programs planning to participate in the Match cannot offer positions outside the Match prior to program director registration and program activation. If a position is offered outside the Match prior to program registration and activation, the program is ineligible to enroll in the Match unless the program has been granted an exception to the All In Policy by the NRMP for the position in question.

POSITIONS THE ALL IN POLICY APPLIES TO

The All In Policy applies to positions for which the NRMP offers matching services:

- All PGY-1 positions as well as all PGY-2 positions in specialties accredited to begin at either the PGY-1 or PGY-2 level, regardless of whether the program begins in the PGY-1 or PGY-2 year
- PGY-2 positions that are “reserved” for applicants eligible to begin advanced training in the year of the Main Residency Match
- PGY-3 positions in Child Neurology

Possible Exceptions to All In Policy

- **Rural Scholars Programs:** Students graduate medical school in three years and commit during medical school to a primary care program at that school.
- **Family Medicine Accelerated Programs:** Students make an early commitment to Family Medicine and are channeled in to that track.
- **Innovative Training Programs:** Students recruited into undergraduate medical education programs that integrate with residency training.
- **Military appointees to civilian programs:** Positions reserved for applicants with a military obligation based on pre-existing arrangements between civilian programs and military branch GME offices.
- **Post-SOAP® positions:** Positions created by programs at the conclusion of the Supplemental Offer and Acceptance Program® for partially-matched applicants who need either a PGY-1 or PGY-2 position to achieve a full course of training.
- **Off-cycle appointments:** Positions becoming available after the Match opens in September and for which training will begin prior to February 1 in the year of the Match. If training will begin after January 31, the position must be filled through the Match.
