## Who We Are

Established in 2012, the Wisconsin Collaborative for Rural Graduate Medical Education (WCRGME) is a group of hospitals, clinics, residencies, and organizations with an interest in developing and sustaining rural graduate medical education to address the primary care physician shortage.

## Resident & Medical Student Assistance

- Centralized directory of and information GME opportunities for rural rotations, residencies, and fellowships
- Connects medical learners with rural training sites

## Rural Hospital & Clinic Technical Assistance

- Initial site assessments
- Informational presentations
- Help with GME funding questions

## Accreditation & Administration Assistance

- Grant writing
- Communicate rural GME opportunities at regional and national conferences

## Urban Residency Assistance

- Recommend rural rotation sites
- Support in developing rural tracks
- Help with training on-site coordinators of new rural rotation sites

## Why Train Rural?

- Broad Scope of Training
- Apprenticeship Model
- Continuity of Patient Care
- Wide Variety of Cases & Procedures
- Preparation to Care for Rural & Underserved

## Experience Rural Practice!

- Care for Patients and Their Families
- Quality of Life
- Sense of Community
- Lower Cost of Living
- Outdoor Adventures
- Scenic Beauty
